# MORPHINE AND

New discovery which effects a perfect and permagent cure without the use of hypodermics.

What has proven to be one of the greatest discoveries in the science of medicine, as well as a boon to suffering humanity, is the new cure which has recently been discovered for the liquor habit and the morphine, cocaine, laudanum, chloroform and all other drughabits, and which is now being so successfully administered by Dr. C. A. Reed, at the Magnetic Springs Sanitarium of Eureka Springs, Arkansas.

This new cure for the morphine, cocaine and all drug habits, permanently removes all need, craving or desire for the drug; revives the dormant nerve cells and effects a perfect and permanent cure in about ten days time, without causing the least sickness or pain. No hypodermics are used, and patients are never confined but are allowed perfect liberty at all times, and they voluntarily discontinue the use of the drug.

The cure for the liquor habit is along the same advanced lines and consists of a specific which is taken by the mouth; is pleasant to the taste and exhitiarating in its effects. It quiets the nerves, clears and strengthens the brain, heals the stomach, increases and strengthens the sexual powers and permanently removes all need, craving or desire for whisky, beer or other alcoholic stimulants in one week's time, without causing the least sickness or inconvenience.

In order to verify the claims made by the discoverer of this great cure for fiquor and drug habits, a reporter visited the Senitarium, and after interviewing sev-

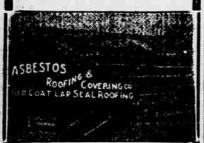

the discoverer of this great cure for fluor and drug habits, a reporter visited the Sanitarium, and after interviewing several parties who had been cured of the morphine habit, and others who had been cured of the liquor habit, does not hesitate to recommend it as a most wonderful and successful cure.

Parties addicted to either the liquor or morphine habits desiring any information about this wonderful cure should address C. A. Reed, M. D., or Magnetic Springs Sanitarium, P. O. Box 649, Eureka Springs, Arkansas.

STONE INJURED MOTORMAN. James Dimes Arrested After Car

Failed to Stop.

Indignant because a Suburban car would not stop for him in Clayton, James Dimes, a plumber's helper at the World's Fair, threw a rock through a rear win-

dow and struck the conductor, S. V. Mc-Chanahan, in the back, it is charged. Dimes was rrested and is now in the

Clayton jail.

Dimes stood on the south side of Forsythe avenue in Clayton Monday night about \$ o'clock and halled a northbound car. The motorman proceeded to the morth side, while Dimes heaved the missile. He was stooping down to pick up snother when Deputy Sheriff Ossenfort, who was on the car, leaped off and pintoned his arms.

Justice Campbell issued warrants against Dimes charging him with common assault and malicious destruction of property.

### LIQUOR HABITS ART JURIES HAVE TAKEN UP LABORS.

Membership Made Up of Recognized Authorities Will Pass on Exhibits for World's Fair.

ONLY ONE WOMAN ON LIST.

This Is Final Test and Thus Far American Artists Are in Minority as to Number of Successful Subjects.

The four National Juries of Sciention for Exhibits in the Fine Arts Department of the World's Fair began their labors esterday in the Museum of Fine Arts, at Nincteenth and Locust streets. Members of the juries, among whom

there is one woman, and the division of subjects upon which they will pass are: Painting-Hermann Dudley Murphy, Ecston, Hugh H. Breckenridge, Philadelphia Harry W. Watrous, New York; Ralph Clarkson, Chicago; Frank Duveneck, Cincinnati; Percy Ives, Detroit; T. C. Steele Indianapolis; John H. Vanderpoel, Chicago; Ellsworth Woodward, New Orleans; Edmund H. Wuerpel, St. Louis; J. C. Nicoll, Will R. Robinson, New York; Colin Campbell Cooper, Philadelphia; H. F. Farny. Cincinnati; F. L. Stoddard, St. Louis; Blanche Ostertag, Chlcago, and William J. Baer, New York. Architecture-A. O. Elzner, Cincinnati; F. M. Mann, M. P. McArdle, E. G. Garden, St. Louis; Joseph C. Hornblower, Washington, D. C.; A. B. Harlow, Pittslaug, and C. F. Schwein-Rarlow, Pittsburg, and C. F. Schweinfurth, Cincinnati. Sculpture—Charles Grafly, Philadelphia; Lorado Taft, Chicago; C. W. Barnhorn, Cincinnati, and Robert Bringhurst. St. Louis. Applied Arts—Templeton Coolidge, W. D. Whiting, Boston; Charles Percy Davis, St. Louis, and Herbert Edward Everett, Philadelphia.

The juries began their sessions at 9:30 o clock and will sit for at least two or three days. Their task is a difficult one and they may not formulate their reports until Saturday. Halsey C. Ives, Chief of the Department of Art, said yesterday that he did not expect to receive the reports until then, when a revised copy would be sent to the Cataloguing Department of the World's Fair.

The names of those whose works have been accepted will not be made public, except in the official catalogue of Fine Arts Exhibits, which will be issued May I. The authors, however, will be advised at once.

two-thirds of the L100 pleces submitted will be accepted.

As an indication of what is required. Chief Haisey C. Ives yesterday gave out the following facts: Of the works submitted by the 300 American students and artists in Paris, the jury chose only 100. The jury that met in Boston selected only 50 of the 400 or 500, while in New York the jury accepted only 146 out of 800. There are many American artists in Germany, but only 15 had works accepted, while of the 85 pieces submitted by artists in Great Britain, 45 came up to the standard. Only 10 of the many American artists in Italy had their works accepted.

There are 780 oil paintings water colors, drawings, pastels, and miniatures awaiting judgement by the jury, with 290 pieces of architecture, sculpture, applied arts to be passed upon.

Lieutenant Hadsell and Captain In-

gram Detailed for Duty at Fair. More army officers have been detailed to the World's Fair by orders issued yes-terday by the War Department at Wash-

The new assignments are First Lieuten ant G. Arthur Hadsell, Nineteenth Infantry, who is ordered to report to Lieu-tenant Colonel Kingsbury, commanding the Jefferson Guards, for special duty in connection with the Fair, and Captain Raiph E. Ingram, Tenth Infantry, who is also detailed for special duty.

Raiph E. Ingram, Tenth Infantry, who is also detailed for special duty.

Other orders are: The leave granted Major Charles Byrne, Thirtieth Infantry, is extended one month. The resignation of First Lieutenant Ashton H. Polter, Twoifth Cavalry, has been accepted.

Upon the recommendation of the Chief of Artillery a board of officers to consist of Major Henry L. Harris and Captain Letoy S. Lyon, Artillery Corps, is appointed to visit sach artillery post and fortification on the Gulf and Atlantic coasts of the United States to definitely fix and locate horizontal base lines for the approval system of artillery, fire control and direction. The board will meet in Galveston on April 15, or as soon thereafter as practicable. Beginning with Galveston Harbor, the board will visit each fortification in order until it completes its work in Portland Harbor, Maine.

First Lieutenant Hiram E. Mitchell, Artillery Corps, is relieved from treatment at the United States Army General Hospital, Washington Barracks, and after a two months' sick leave will join his proper station.

two months' sick leave will join his proper station.

The following named officers of the Artillery Corps will report to Major John A. Lundeen, president of the Examining Board at Fort Monroe, for examination for promotion:

Second Lieutenants David Y. Beckham, Richard C. Marshall, Jr., Morris E. Locke, John O. Steger, William W. Bellard, Jr., Rex Van Den Corput and James A. Battaline Second M.

Hex ven ben torput and James A. Thomas.

Battalion Sergeant Major Elisha J. D. Melhinch. Twenty-sixth Infantry. Fort Sam Houston. Tex. is transferred to the general recruiting service as private. He will be sent to the recruiting station. Nashville, Tenn.

#### FAIR GROUNDS DIVIDED INTO GUARD DISTRICTS.

Commandant Kingsbury Issues Orders Partitioning Site Into Three Sections to Be Patrolled.

The World's Fair grounds have been divided into three parts, each of which one company of the three Jefferson rds, recently formed will police until the formation of the three other com-panies of the guards, when the site win be divided into six districts.

The order dividing the site into dis-

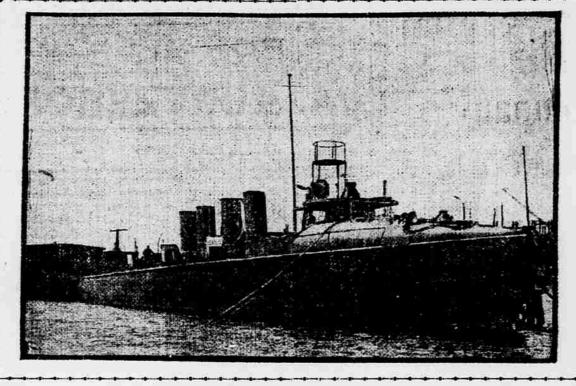

tricts was issued yesterday by Colonel Kingsbury for the better protection of kingsbury for the better protection of the grounds and buildings. Company A is assigned to the western district, extending from the western fence to Skinker road. Company B will patrol the Central 1Mstrict, embracing the territory extending from Skinker road to a line lengthwise through the center of the Plaza St. Louis, thence along the south side of the Palaces of Education and Mines and Metallurgy, thence along the road in front of the Park Boarding and Commissary Hotel to the Intramural tracks and south along the road in tracks to the Cheltenham entrance.

Company C will have the territory of the eastern district, which comprises all that part of the grounds east of the line above mentioned. Captain Shelton, who was detailed to the guards by the War Department, and who reported for duty Monday, has been assigned to the command of Company C.

Lieutenant Colonel E. A. Godwin, former commandant of the Jefferson Guards, departed yesterday for Fort Bayard, New Mexico, accompanied by Mrs. Godwin and their son, who has been seriously ill and is now convalescing. Colonel Godwin has been granted another month's leave of absence and at its expiration will rejoin his regiment at San Francisco.

EDITORS TO MEET IN MAY. Session of National Editorial Asso-

ciation a Big Event. The National Editorial Association will meet in St. Louis May P. 17, 15 and E. and P. V. Collins, the president, has forwardeet in St. Louis May 14, 17, 15 and 15, and of to the World's Fair management a copy of the programme for the four days' sesONE OF NAVAL VESSELS TO VISIT ST. LOUIS.

Type of torpedo-boat destroyer soon to come up the Mississippi as far as this city, in company with the United States Gunboat Nashville.

nence will be on the programme, among these being Henry Watterson Edward Bok and Charles Emory Smith,
It is expected that about 799 newspaper men will attend the meeting of the National Editorial Association, which will constitute the first bir, event in the World's Press Week. This meeting will be followed by the sessions of the World's Press Parilament.

The local speakers for the meeting of the Editorial Association are: Mayor Wells, who will deliver an activess of welcome on behalf of the circ. President Francis, who will welcome the editors on behalf of the World's Fair management Captain Heary King and Mark Bennitt. The latter has charge of the Press Publicity Department of the World's Fair.

**AUSTRIA'S BIG EXHIBIT** IS DUE IN ST. LOUIS.

Commissioner General Notified That 215 Cases, Laden With Rare Specimens, Are Coming.

While Austria has no national pavilion at the World's Fair, that country's exhibits, which will be placed chiefly in the Palaces of Mines and Metallurgy and Liberal Aris, will be among the most extensive of that of any of the foreign countries.

has received notice that a consignment of 215 cases, containing exhibits of all kinds 215 cases, containing exhibits of all kinds for the World's Fair, will arrive in St. Louis this morning.

In the consignment are specimens of beautiful Austrian glass and chinaware. Boliemian pottery, woodwork and steel instruments from the famous Vienna mills, said to be the largest in the world; sculpture, instruments of war manufactured in Austria, as well as rare musical instruments, some of which are held as pricelest. priceless.
Bohemian beer and Bohemian stogies

Bohemian beer and Bohemian stogies are to be a part of Austria's exhibit, but these will be sent in a later consignment. Rich specimens of the work of Austrian goldsmiths are also to be forwarded to the World's Fair in a special shipment.

Austria is made up of fifteen States and in the shipment which will be received to day every State will be received to day every State will be represented. The Austrian people have shown great interest in the Fair, and manufacturers and dealers have strived to send the best specimens of their work for exhibition at the Universal Exposition.

Not the least among the numerous Austrian exhibits will be the native wines and mineral waters, for which Austria is celebrated. Laces from its textile mills, leatherware and furniture are included in the exhibits.

Austria's war exhibit will be particularly interesting. At Fiume, near Vienna, is the largest manufactory of Whitehead torpeloes in the world. From these works have come many of those destructive machines of war, which have wrought have with the Russian fleet in Japanese waters, and they are to be shown in a complete series, from the first crude altempts to the finished engine of death now in use. Another part of the war exhibit is a series of wax models of Austrian soldiers, showing their costumes. arms and utensils, on the march and in barracks.

An exhibit of much interest in the Austrian consignment is a marble bust of Emperor Franz Josef. It was made in Vienna by a French artist.

TOO NEAR BABY INCUBATOR.

Physician in Charge Objects to Merry-Go Round as Pike Neighbor. Lest the delicate process of rearing bables in the baby incubator on the Pike at the World's Pair be disturbed by the strident tones of the merry-go-round adjoining it, the latter may be removed to another part of the Pike. Doctor J. R. Lemen of the medical staff connected with the baby incubator has formally com-plained to the Exposition management against the merry-ge-round as a next door

planned to the Exposition management against the merry-ge-round as a next door neighbor.

The letter protests that the concession known as the merry-go-round, or golden chariots, will prove an annovance to the little inhabitants of the baby incubator and that the unmussical iones of the flying contrivance as it grinds out "Molly and I and the Baby" will not conduce to the process of properly fitting the babies, to whom nature had glyen a bad start, for their launching into the world.

Doctor Lemen says the unicance might even have the effect of proving faint to the little ones, and wishes another location to be assigned to the golden chariots where they will be better appreciated.

The Concessions Committee, which assigned the sites originally, will wrestle with the question, and if both concessionaires insist on retaining their sites a merry war may ensue over the merry-go-round.

SATAN AND LOT'S WIFE.

Louisiana to Send Two Unique Statues to Exposition.

Louislana will have two interesting exhibits in the Palace of Mines and Metal

hibits in the Palace of Mines and Metallurgy to call attention of World's Fair visitors to the sulphur and salt resources of that State.

One exhibit will be an immense statue of Satan himself. This statue will weigh 2,489 pounds, will be 12 feet in height and rest on a column 24 inches square at the base. The statue and base will be composed entirely of sulphur taken from the deposits in Calcasieu County.

The other exhibit is in the form of a statue of "Lot's Wife," who, according to hiblical tradition, was turned into a pillar of selt. In connection with this exhibit the Louisiana Commission will have placed in the Palace of Mines and Metallurgy several blocks of salt weighing between 30 and 30 pounds.

Louisiana will make an extensive display in the Anthropology building, and an entire apartment has been reserved for it in this section of the Exposition.

ESPALJER FRUIT TREE ORCHARD. French to Make Einbornte Display

Outside Government Pavilion. An orchard of espailer fruit trees is to be one of the features of the French exhibit at the World's Fair. The representatives of France began planting the trees that will comprise this orchard yesterday. The idea is distinctly new in the United States, and is only one of a number of horticultural features that will be seen in the gardens surrounding the French payfilion.

Espailers are ordinary fruit trees, trained and pruned with minute painstaking care to assume architectural forms. It requires from eight to ten years to accomplish the work properly. The trees represent a donation of the gardeners of France and were shipped to St. Louis under the care of a special of-cer commissioned by the Government. An orchard of espaller fruit trees is to

Taylor to Judge Shire Horses.

Bloomington, Ill., April 5.-The America Shire Association has elected Charles Taysion. Many speakers of national promi- lor, the vice president of the association,

to act of judge of this class of horses at the St. Louis World's Pair. Mr. Taylor resides in Williamsfiel. Ill., and he will remain at St. Louis unit the exhibit as closed.

President Trueman of Businell. Ill., states that the association antiquates a very large number of cortest, and that already much interest is manifest.

Pair will be invited to drink a cup of coffee in the Brazilian pavilion. Yesterday Colonel F. M. de Souza Aquair, the Brazillan Commissioner General, received L29 sacks of coffee from Brazil. Each of these sacks weighs 129 pounds. The consignment will be used in the Brazilian pavilion, where a native chef will dispense the liquid just as it is made in Brazil.

HAIRY AINUS DUE TO-MORROW.

Have Arrived at St. Paul, in Custody of Prof. Starr-Expected Soon. The eight specimens of the aboriginal inhabitants of Japan collected for the ethnology section of the World's Fair are expected to arrive in St. Louis to-day or to-morrow. The eight Ainus, accompanied by Professor Frederick Starr of

panied by Professor Frederick Starr of the University of Chicago, their custodian, have arrived at St. Paul. Minn.

The hirry tribe of Ainus include men and women, and they will be housed temporarily on their arrival in the Indian building, near the cthnology reservation. During the Fair they will be shown in the outdoor anthropology exhibit space west of the building.

Professor Starr's expedition and return from Japan with the material for which he went to search, constitutes one of the quickest pieces of work done in the Department of Anthropology. He left St. Louis for Japan only last January 18.

Several more expeditions are to be heard from. The Patagonian giants are now on the way, but none of the several parties that went out into the wilds of Darkest Africa in search of Red Ndombes, pygmies and other interesting human specimes, has been best The Austrian Commissioner General pygmics and other interesting humans received notice that a consignment of leaving civilized parts last December.

> MISS HAYWARD'S POLICE BADGE. Will Admit History Superintendent

> Anywhere Within Guard Lives. Miss Florence Hayward, superintendent of the history section of the Department of Anthropology, is to be provided with an insignia that will prove an open sesame to any part of her deminion in time of dis-

any part of her deminion in time of disturbance. This precaution is to be taken in view of the absolute strictness of the special guards that will be maintained over a number of the priceless collections exhibited in the visiory section, notably the Queen's jubilee presents.

The nature of the sign that will open all doors and admit Miss Hayward even within the police lines in the Anthropology buildings has not yet been determined, but it will bear the mark of authority. Sergent Proctor of the London Police Department is now in St. Louis, the first of the guard of six for the jubilee presents. Five others—a plain clothes man from Scotland Yard and four London "bobbies"—are expected later.

W. C. Foster, an attache of the Imperial Institute of England, who will have charge of the installation of the presents in the Hall of Congresses, is also here, having artived in St. Louis about ten days age. The glass cases which will contain the presents are being installed now, and as they are set up the presents will be taken from the vaults of the Mississippi Valley Trust Company and placed in them.

JAPANESE DIRECTOR HERE. Fifteen Students of Tokio University

Arrive, to Work at Fair. Matsuimon Nagai of Nagoya, Japan, the last of the three directors of the Japan Exhibitors' Association, which has charge of the installation of the Japanese exhibits at the Exposition, arrived in Louis yesterday. Mr. Nagai will make his residence with Mr. Sugawa, a member of the directorate, at No. 523 Washington

boulevard.

Fifteen Japanese students of the University of Tokto arrived yesterday morning in charge of K. Romateu, M. Hapamo, K. Ikeda and N. Aine, each of whom will have charge of exhibits in the Japanese section at the Fair and who are employing the students.

They were met at Union Station by Y. Haphimoto and registered at the Terminal Hotel until they shall have secured quarters near the Fair grounds.

ROMAN CITIZENS COMING.

Three Hundred From Sunny Italy for Pike Concession.

"Ancient" Rome on the Pike is to have 200 Inhabitants from the Roman districts to lend natural color to its surroundings. James B. Carragrein, general manager of the concession, will depart to-morrow night for New York, where he will mee a ship which will have on board the per a sup which will have on board the persons who are to form a part of the World's Fair's "Ancient Rome." In the company will be eighty ballet girls, acrobate, a Roman hand and representatives of every phase of Roman life.

Brazil Will Serve Coffee. Every visitor to the St. Louis World's RADIUM DANCE THE LATEST.

Visitors to the Pike. It has come at last The radium dance is the latest terpsichorean novelty for the Pike.

It is a European importation, which has been secured in Paris for the "Paris on the Pike."

the Pike."

A telegram to the Amusement Bureau of the Concessions Department yesterday gave information relative to the securing of the latest Parislan novelty. Mark L. Stone, manager of the Paris Amusement Company, also wired that he had engaged a number of the best concert hall singers on the Parislan boulevards.

The press agent gives the following information:

The radium dance is described as a glittering whirl in flames. Against a somber black background the dancer becomes a mass of fire. The edges of her garments hurn with a pale blue flame.

The immediate atmosphere through which she whirls seems to be ignited from the swirling robes; tiny tongues of flames apparently being shed by the dancer and vanishing as they gain the freedom of the surrounding air.

This dance will be done in the big theater connected with the concession.

First Military Secretary Arrives Lieutenant Charles Haight, who was re-

cently detailed by the War Department as Military Secretary of the Ceremonies Committee of the World's Fair, yesterday reported to President Francis for duty. He was afterwards introduced to Colonel E. C. Culp. Secretary of the Ceremonies Committee, in whose office he will be stationed.

With Colonel Edmund Rice, who, as told exclusively in The Republic recently, has been appointed by the Exposition management as Military Secretary, he will have been assigned dates for encampments at the Fair. The division of the duties between the two Military Secretaries with probably be that the regular troops will be looked after by Lleutenant Haight and the militar troops and other military organizations by Colonel Rice.

Applications for barracks quarters at the World's Fair have been received from Company F. Second New York Infantry, at Schenectady, which will be here from August 2 to September 4: Company B. Howard Cadet Corps. East Lake, Ala. from November 1 to November 10: First Battallon, Second Infantry, of Meriddan, Miss. from July 2 to July 10. The dates, June 20 to Z, set aside for the Cadets of

Soldiers Ask for Reservations.

Mr. Hoch's Lecture. Edmund S. Hoch, assistant to Director of Exhibits Skiff of the World's Fair, last night delivered an interesting address on the "Exhibit Features of the Exposition" before the Webster Groves Tuesday Evening Club. The address was well illustrated by stereopticon views and was enjoyed by a large audience.

Plumbers' Strike Off at Fair. The plumbers' strike off at Fair.

The plumbers' strike at the World's Fair has been settled by the satisfying of the men's demands for an increase of wages to \$6 per day. About 125 of the men who went out on strike two weeks ago have gone back to work at the Fair. The men are nearly all in the employ of the Hanley-Cassey Plumbing Company, which controls the plumbing contracts at the World's Fair.

German Representatives Arrive. Herman Seweester and Marx Schmidt, representatives of the German Government Railroad Administration, arrived at the World's Fair yesterday and will supervise the installation of Germany's out-door transportation exhibits. Germany's display in this line will be extensive, and every department of the Government railway system will be reproduced.

To Install School Garden.

C. F. Wheeler, an attach of the United States Bureau of Plant Industry, has come to St. Louis to supervise the instal-iation of the School Garden at the World's Fair grounds. The School Garden is to have an irregular tract immediately north of the five-acre plant map of the United States. World's Fair Notes.

T. Megia and Julio C. Lecaros, Commis-sioner and Assistant Commissioner, respectively, of Salvador, arrived in St. Louis yesterday. Salvador, they announced, would make a dis-

BLAZE AT FAIR PUT OUT QUICKLY

By Crawling Through Conduit of Machinery Hall Superintendent Chapman Extinguishes Fire.

By crawling with a fire extinguished through a smoke-filled tunnel in the Ma chinery Hall at the World's Fair grounds vesterday, W. El Chapman, superintenden of construction for the Westinghouse Elec trical Company, averted what might have been a serious configeration

The fire was discovered at about 1:45 o'clock yesterday afternoon in the west end of Machinery Hall, where there is a conduit, \$x12 feet, in which are a number of steam pipes. This conduit is at present covered with planks.

ent covered with planks.

The origin of the blaze was probably the ignition by spontaneous combustion of a package of foll-soaked waste, which had been dropped in among the steam pipes by some workman yesterday morning. When the snoke was seen issuing from the tunnel an alarm was quickly turned in, and the entire Exposition fre-fighting force and three companies of the city department responded to the call.

Without waiting their arrival, however. Superintendent Chapman seized an extinguisher and entered the smoke-filled tunnel. Quickly pushing his way in among the steam object for a distance of some forty feet he turned the extinguisher on the blaze and soon had it out. When the first of the companies arrived on the scene there was nothing for them to do.

The hurried response of the heavy engines played havoc with a fine new brick tavement on the north side of the Machinery Hall. The pavement had not been compated, the loosely laid bricks being merely covered with sand, and as the horses with the heavy apparatus raced over the surface the bricks and sand spread under their weight. A part of the pavement will have to be repaired.

Sharp Brenk in Market for the Staple at Yew Tork Follows Announcement From Fall River.

Fall River, Mass., April 5.- Twenty of the corporations in this city engaged in the manufacture of print cloths, controlling ment to curtail production by shutting down two days a week, beginning Thursday. The action is due to unsettled conditions in the cotton and cloth markets.

New York, April 5.- News of extensive curtailment in manufacture at Fall River was attended by a break of about threequarters of a cent per pound in the cotton market this afternoon. The close was barely steady at practically the lowest points of the session, a net decline of 55@55 points.

## TO THE WOMEN OF AMERICA

Meeting every vicissitude; dispelling every cloud of sickness; conquering every pain; Wine of Cardui is the great sponsor for womanly health. It is the guiding star of girlhood, the protecting wing of motherhood and the strong arm of old age. Wine of Cardui was discovered by the Rev. R. L. McElree, a presbyterian minister in West Tennessee, many years ago. It is a natural tonic, an extract of healing herbs, perfectly harmless and free from drastic drugs. No pain, no inflammation, no congestion, no weakness can withstand the soothing influence of Wine of Cardui. It can be depended upon absolutely to regulate the monthly periods, both painful and abnormal. It does cure bearing down pains and cures them quickly. It does cure leucorrhoea. It does cure ovarian pains, backaches, headaches and nervousness. It eases the pain of child-bearing. It removes the difficulties which cause barrenness. It smoothes the way to a healthy and happy old age by limiting the dangers which lurk in the change of life. What do American women-what do suffering women need more than this? Can't Wine of Cardui bring you health?

All druggists sell \$1.00 bottles of Wine of Cardui.
